TASKS TO COMPLETE WITH YOUR REALTOR

Prequalification has given you a realistic budget. Use this number in your home search.

Your lender will assist you through the application process. Use this checklist as a guide, your lender may require additional documentation.

After you identify the right home, your real estate agent will help you come up with an offer. Once you and the seller agree on a final price and terms, you'll both sign a purchase agreement.

Your lender will schedule a home appraisal to validate the home's value. Once the appraisal is complete, your lender will verify your income, assets, debt and home value details. When you're cleared to close, the lender will provide a closing disclosure.

At closing, you'll be able to review all of your documents and ask any questions. You'll have to pay your down payment and closing costs as well.
